## Section 1 - Chemical Product and Company Identification

| Product Name           | 1-Dodecanol (Dodecyl Alcohol, Lauryl Alcohol) pure, 98%                                             |  |  |
|------------------------|-----------------------------------------------------------------------------------------------------|--|--|
| Product Code<br>CAS No | 56085<br>112-53-8                                                                                   |  |  |
| Use for                | Laboratory Chemicals.                                                                               |  |  |
| Company Name           | Sisco Research Laboratories Pvt. Ltd.                                                               |  |  |
| Address                | 608, B Wing, Satellite Gazebo, Andheri Ghatkopar Link Road,<br>Andheri (E), Mumbai - 400 099, India |  |  |

### Section 2 - Composition/Information on Ingredients

| AS#      | Product Name | %      | Einecs#   |  |
|----------|--------------|--------|-----------|--|
| 112-53-8 | 1-Dodecanol  | 98     | 203-982-0 |  |
| NF G     | 1.1 D.1      | 1 11 1 | 1. 1.1 1. |  |

No Components need to be Disclosed according to the applicable regulations.

## Section 3 - Hazards Identification

## Risk advice to man and the environment

Toxic if swallowed. Very toxic in contact with skin. Irritating to eyes, respiratory system and skin.

## Section 4 - First Aid Measures

Eves: Rinse thoroughly with plenty of water for at least 15 minutes and consult a physician. Skin: Wash off with soap and plenty of water. Take victim immediately to hospital. Consult a physician. Ingestion: Never give anything by mouth to an unconscious person. Rinse mouth with water. Consult a physician. Inhalation: If breathed in, move person into fresh air. If not breathing give artificial respiration Consult a physician. General advice: Consult a physician. Show this safety data sheet to the doctor in attendance. Notes to Physician: **Section 5 - Fire Fighting Measures Extinguishing Media** Suitable: Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide. **Special Protective** Equipment For Firefighters: Wear self contained breathing apparatus for fire fighting if

necessary.

Section 6 - Accidental Release Measures

| Product Code 5608                                                                       | 5                                                                                                     |  |
|-----------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------|--|
| <b>Personal precautions:</b>                                                            | se personal protective equipment. Avoid dust formation. Avoid breathing dust.                         |  |
|                                                                                         | Ensure adequate ventilation. Evacuate personnel to safe areas.                                        |  |
| Environmental precautions: Prevent further leakage or spillage if safe to do so. Do not |                                                                                                       |  |
|                                                                                         | let product enter drains.                                                                             |  |
| Methods for cleaning up:                                                                | Pick up and arrange disposal without creating dust. Keep in suitable, closed containers for disposal. |  |

## Section 7 - Handling and Storage

Handling: Avoid contact with skin and eyes. Avoid formation of dust and aerosols. Provide appropriate exhaust ventilation at places where dust is formed. Normal measures for preventive fire protection.

Storage: Room Temperature . Keep container tightly closed in a dry and well-ventilated place.

# Section 8 - Exposure Control / Personal Protection

## **Personal Protective Equipment**

| Respiratory Protection | Where risk assessment shows air-purifying respirators are appropriate use a full-face particle respirator type N99 (US) or type P2 (EN 143) respirator cartridges as a backup to engineering controls. If the respirator is the sole means of protection, use a full-face supplied air respirator. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU). |  |  |
|------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|--|
| Hand Protection:       | The selected protective gloves have to satisfy the specifications of EU Directive 89/686/EEC and the standard EN 374 derived from it. Handle with gloves.                                                                                                                                                                                                                                                                    |  |  |
| <b>Eye Protection:</b> | Safety glasses                                                                                                                                                                                                                                                                                                                                                                                                               |  |  |
| Skin and body protecti | on: Choose body protection according to the amount and concentration of the dangerous substance at the work place.                                                                                                                                                                                                                                                                                                           |  |  |
| Hygiene measures:      | Avoid contact with skin, eyes and clothing. Wash hands before breaks and immediately after handling the product.                                                                                                                                                                                                                                                                                                             |  |  |

#### **Section 9 - Physical and Chemical Properties**

| Physical State:    | Liquid           |
|--------------------|------------------|
| Molecular Formula: | C12H26O          |
| Molecular Weight:  | 186.34           |
| Melting point:     | 22 - 27 °C .     |
| Boiling Point:     | 258 - 265 °C     |
| Flash Point:       | 119 °C /246.2 °F |
|                    |                  |

## Section 10 - Stability and Reactivity

#### www.srlchem.com

| Product Code               | 56085                                        |  |
|----------------------------|----------------------------------------------|--|
| Storage stability:         | Stable under recommended storage conditions. |  |
| Materials to avoid:        | Strong oxidizing agents                      |  |
| Hazardous decomposition    |                                              |  |
| Products formed under fire |                                              |  |
| conditions                 | Carbon monoxide (CO). Carbon dioxide (CO2).  |  |
|                            |                                              |  |

# Section 11 - Toxicological Information

| Acute toxicity:       | LD50 Oral - Rat - male and female - > 2.000 mg/kg                                     |
|-----------------------|---------------------------------------------------------------------------------------|
|                       | LD50 Dermal -Rabbit -Male & Female8000-12.000                                         |
| Irritation and corros | ion: No data available                                                                |
| Sensitisation:        | No data available                                                                     |
| Chronic exposure:     | IARC: No component of this product present at levels greater than or equal to 0.1% is |
|                       | identified as probable, possible or confirmed human carcinogen by IARC.               |

## **Section 12 - Ecological Information**

No data available.

## Section 13 - Disposal Considerations

Product: Observe all federal, state, and local environmental regulations. Contact a licensed professional waste disposal service to dispose of this material. Dissolve or mix the material with a combustible solvent and burn in a chemical incinerator equipped with an afterburner and scrubber.
Contaminated packaging: Dispose of as unused product.
